CAREER OBJECTIVE

To leverage my passion for technology and apply my skills in Full Stack Development and Embedded Systems (Hardware & Software) to develop innovative solutions and contribute to organizational growth.

EDUCATION

B.Tech - Electronics & Communication Engineering 2024 - 2028

Manakula Vinayagar Institute of Technology, Puducherry (Pondicherry University)

CGPA: 9.25 (till 4th Semester)

Higher Secondary (HSC) - 80.8% May 2024

St. Joseph of Cluny Mat. Hr. Sec. School, Tindivanam - State Board

Secondary (SSLC) - 87.4% March 2022

St. Joseph of Cluny Mat. Hr. Sec. School, Tindivanam - State Board

TECHNICAL SKILLS

Programming Languages: Python, Java, C

Web Development: HTML5, CSS3, JavaScript, Node.js, React.js, Express.js, REST APIs

Database: SQL, MongoDB, PostgreSQL

Tools & Platforms: Git, VS Code, Arduino IDE

Hardware / IoT: Arduino, IR Sensor, Embedded Systems

SOFT SKILLS

Problem Solving, Team Collaboration, Communication, Adaptability, Time Management, Analytical Thinking, Attention to Detail

INTERNSHIP EXPERIENCE

Hardware Intern Apr 2024 - May 2024

Chemfab Alkalies Limited, Kalapet, Puducherry

- Gained hands-on exposure to industrial hardware systems and manufacturing processes across 3+ production units.
- Studied plant operations, equipment handling, and industrial safety protocols during a 4-week on-site rotation.
- Analysed hardware configurations used in chemical processing plants to document equipment layout.

PROJECTS

Smart Home Automation using IR Sensor

Arduino | IR Sensor | Embedded C

- Automated lighting control using an IR sensor and Arduino microcontroller, cutting manual switch operation to zero.
- Implemented real-time sensor logic for energy-efficient home management.

Mediverse - Healthcare Startup Website

HTML | CSS | JavaScript

- Built a responsive healthcare website with a modern, user-friendly interface across desktop and mobile breakpoints, achieving consistent rendering across 3+ screen sizes.
- Focused on seamless navigation and improved user experience, structuring the site around 5+ core pages and cutting average navigation clicks to reach key info.

Career Guidance Web App

HTML | CSS | JavaScript | National Level Hackathon Project

- Designed an interactive platform to guide students based on their interests and education, built for a national-level hackathon.
- Delivered a functional prototype within a 24-hour hackathon window, presenting the solution to a panel of judges.
- Structured the recommendation flow to map user inputs to relevant career/education paths, improving decision clarity for student users.

CERTIFICATIONS

- C Programming - Verified Certificate
- HTML - Certified
- Python - Verified Certificate
- MS Word & Excel - Certified
- Python 3.x Course (Skill Rack)
- Google Cloud AI (Google Cloud)

ACHIEVEMENTS

- National Level Hackathon Participant
- Participated in Smart India Hackathon
- Drone Technology Workshop (TSROBOTICS)
- MERN Stack Development Workshop
- MERN Stack Developer Event Participant
- AI Unplugged Workshop
- Testing of Electronic Devices Workshop
- Paper Presentation Participant

LANGUAGES

English, Tamil
